6. Claims 1-10 are allowed.

Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose the combination of the limitations as set forth in the claim: a first rectangular waveguide for propagating the third linearly polarized wave signal outputted thereto from the second orthomode transducer; a second rectangular waveguide disposed bilateral symmetrically to the first rectangular waveguide, for propagating the fourth linearly polarized wave signal outputted thereto from the second orthomode transducer; a third orthomode transducer disposed below the second orthomode transducer, for combining the third

and fourth linearly polarized wave signals respectively propagated thereto by the first and the second rectangular waveguides into a circularly polarized wave signal, and for outputting the circularly polarized wave signal; and a radiator disposed above the third orthomode transducer, for emitting the circularly polarized wave signal outputted thereto from the third orthomode transducer to a reflector in independent claim 1.

Regarding claims 2-10 are allowable for the reasons given above because of their dependency status from independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of relevant prior art

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prior art Boldissar, Jr. (USP. 5,784,033) disclose plural frequency antenna feed.

Prior art Ergene (USP. 6,323,819) disclose dual band multimode coaxial tracking feed.
